

Safety Data Sheet according to the Hazardous Products Regulation (February 11, 2015) Issue date: 01/07/2021 Revision date: 01/07/2021 Version: 1.0

| Ŷ   |   |
|---|---|
| SECTION 1: Identification   |   |
| 1.1. Product identifier   |   |
| Product form  | : Mixture   |
| Product name  | : Grain Screenings  |
| 1.2. Recommended use and restrictions   | s on use  |
| Recommended use   | : Animal feed   |
| 1.3. Supplier   |   |
| Parrish & Heimbecker Limited<br>1400-201 Portage Ave<br>Winnipeg, Manitoba<br>R3B 3K6<br>T 204-956-2030 |   |
| 1.4. Emergency telephone number   |   |
| Emergency number  | : 1-833-201-5978  |
| SECTION 2: Hazard identification  |   |
| 2.1. Classification of the substance or r   | nixture   |
| Classification (GHS CA)   |   |
| Comb. Dust  |   |
| 2.2. GHS Label elements, including pre-   | cautionary statements   |
| GHS-CA labelling  |   |
| Signal word (GHS CA)  | : Warning   |
| Hazard statements (GHS-CA)  | : May form combustible dust concentrations in air   |
| 2.3. Other hazards  |   |
| No additional information available   |   |
| 2.4. Unknown acute toxicity (GHS CA)  |   |
| Not applicable  |   |
| SECTION 3: Composition/information  | on on ingredients   |
| 3.1. Substances   |   |
| Not applicable  |   |
| 3.2. Mixtures   |   |
|   | o be mentioned according to the criteria of section 3.2 of WHMIS 2015   |
|   | be mentioned according to the chiteria of section 3.2 of whitiwite 2015   |
| SECTION 4: First-aid measures   |   |
| 4.1. Description of first aid measures  |   |
| First-aid measures after inhalation   | : If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical advice/attention if you feel unwell.  |
| First-aid measures after skin contact   | : If skin irritation occurs: Wash skin with plenty of water. Obtain medical attention if irritation persists.   |
| First-aid measures after eye contact  | <ul> <li>IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if presen<br/>and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.</li> </ul> |
| First-aid measures after ingestion  | Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical advice/attention if you feel unwell.  |

unconscious person. Get medical advice/attention if you feel unwell. 4.2. Most important symptoms and effects (acute and delayed) Symptoms/effects after inhalation : Dust may cause respiratory tract irritation. Symptoms/effects after skin contact : Dust may cause skin irritation. Repeated exposure may cause skin dryness or cracking. : Dust may cause eye irritation. Symptoms may include discomfort or pain, excess blinking and Symptoms/effects after eye contact tear production, with possible redness and swelling. Symptoms/effects after ingestion May be harmful if swallowed. May cause gastrointestinal irritation, nausea, vomiting and : diarrhea.

Safety Data Sheet

according to the Hazardous Products Regulation (February 11, 2015)

| 4.3. Immediate medical attention and<br>Other medical advice or treatment   | : Symptoms may be delayed. In case of accident or if you feel unwell, seek medical advice  |
|---|--|
|   | immediately (show the label where possible).   |
| SECTION 5: Fire-fighting measure  | es   |
| 5.1. Suitable extinguishing media   |  |
| Suitable extinguishing media  | : Water fog. Dry chemical. Foam.   |
| 5.2. Unsuitable extinguishing media   |  |
| Unsuitable extinguishing media  | : Do not use a solid water stream as it may scatter and spread fire.   |
| 5.3. Specific hazards arising from the  | e hazardous product  |
| Fire hazard   | : Combustible dust. Products of combustion may include, and are not limited to: oxides of carbon. Hydrogen sulfide.  |
| Explosion hazard  | : Airborne dust in sufficient concentrations when confined and exposed to a sufficient ignition source can explode.  |
| 5.4. Special protective equipment an  | d precautions for fire-fighters  |
| Protection during firefighting  | : Keep upwind of fire. Wear full fire fighting turn-out gear (full Bunker gear) and respiratory protection (SCBA).   |
| SECTION 6: Accidental release m   | easures  |
| 6.1. Personal precautions, protective   | equipment and emergency procedures   |
| General measures  | : Use personal protection recommended in Section 8. Isolate the hazard area and deny entry t unnecessary and unprotected personnel. Dust deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration. Avoid dispersal of dust in the air (ie, clearing dust surfaces with compressed air). Use only non-sparking tools.  |
| 6.2. Methods and materials for conta  | inment and cleaning up   |
| For containment   | Contain spill, then place in a suitable container. Minimize dust generation. Do not flush to sev<br>or allow to enter waterways. Use appropriate Personal Protective Equipment (PPE). Avoid<br>dispersal of dust in the air (ie, clearing dust surfaces with compressed air).  |
| Methods for cleaning up   | : Vacuum or sweep material and place in a disposal container. Provide ventilation.   |
| 6.3. Reference to other sections  |  |
| For further information refer to section 8: "Ex   | posure controls/personal protection"   |
| SECTION 7: Handling and storage   | 9  |
| 7.1. Precautions for safe handling  |  |
| Precautions for safe handling   | : Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Avoid contact with skin and eyes. Avoid generating and breathing dust. Do not swallow. Handle and open container with care. When using do not eat, drink or smoke. Good housekeeping is important to prevent accumulation of dust. The use of compressed air for cleaning clothing, equipment, etc, is not recommended. Ensure adequate ventilation. Handlir this product may result in electrostatic accumulation. Use proper grounding procedures.  |
|   | : Wash contaminated clothing before reuse. Always wash hands after handling the product.   |
| Hygiene measures  |  |
| 7.2. Conditions for safe storage, incl  |  |
| ,,,   | <ul> <li>uding any incompatibilities</li> <li>Keep away from sources of ignition. Keep out of the reach of children. Keep container tightly closed. Store in dust-tight, dry, labelled containers. Avoid any dust buildup by frequent cleani and suitable construction of the storage area.</li> </ul>   |
| 7.2. Conditions for safe storage, incl<br>Storage conditions  | : Keep away from sources of ignition. Keep out of the reach of children. Keep container tightly closed. Store in dust-tight, dry, labelled containers. Avoid any dust buildup by frequent cleani and suitable construction of the storage area.  |
| 7.2. Conditions for safe storage, incl<br>Storage conditions<br>SECTION 8: Exposure controls/pe   | : Keep away from sources of ignition. Keep out of the reach of children. Keep container tightly closed. Store in dust-tight, dry, labelled containers. Avoid any dust buildup by frequent cleani and suitable construction of the storage area.  |
| 7.2. Conditions for safe storage, incl<br>Storage conditions<br>SECTION 8: Exposure controls/pe<br>8.1. Control parameters  | : Keep away from sources of ignition. Keep out of the reach of children. Keep container tightly closed. Store in dust-tight, dry, labelled containers. Avoid any dust buildup by frequent cleani and suitable construction of the storage area.  |
| 7.2. Conditions for safe storage, incl<br>Storage conditions<br>SECTION 8: Exposure controls/pt<br>8.1. Control parameters<br>No additional information available   | : Keep away from sources of ignition. Keep out of the reach of children. Keep container tightly closed. Store in dust-tight, dry, labelled containers. Avoid any dust buildup by frequent clean and suitable construction of the storage area.   |
| 7.2. Conditions for safe storage, incl<br>Storage conditions<br>SECTION 8: Exposure controls/pe   | <ul> <li>Keep away from sources of ignition. Keep out of the reach of children. Keep container tightly closed. Store in dust-tight, dry, labelled containers. Avoid any dust buildup by frequent clean and suitable construction of the storage area.</li> <li>ersonal protection</li> <li>Ensure good ventilation of the work station. It is recommended that all dust control equipmer such as local exhaust ventilation and material transport systems involved in handling of this product contain explosion relief vents or an explosion suppression system or an oxygen-deficient environment. Ensure that dust-handling systems (such as exhaust ducts, dust collectors, vessels, and processing equipment) are designed in a manner to prevent the esc of dust into the work area (i.e, there is not leakage from the equipment). Use only appropriat</li> </ul> |
| 7.2. Conditions for safe storage, incl<br>Storage conditions<br>SECTION 8: Exposure controls/pe<br>8.1. Control parameters<br>No additional information available<br>8.2. Appropriate engineering control | <ul> <li>Keep away from sources of ignition. Keep out of the reach of children. Keep container tightly closed. Store in dust-tight, dry, labelled containers. Avoid any dust buildup by frequent clean and suitable construction of the storage area.</li> <li>ersonal protection</li> <li>s</li> <li>Ensure good ventilation of the work station. It is recommended that all dust control equipmer such as local exhaust ventilation and material transport systems involved in handling of this product contain explosion relief vents or an explosion suppression system or an oxygen-</li> </ul>   |

Environmental exposure controls

: Avoid release to the environment.

## Safety Data Sheet

according to the Hazardous Products Regulation (February 11, 2015)

#### 8.3. Individual protection measures/Personal protective equipment

#### Hand protection:

None necessary under normal conditions of use. Wear gloves if handling large quantities.

#### Eye protection:

Safety glasses or goggles are recommended when using product.

#### Skin and body protection:

Wear suitable protective clothing

#### Respiratory protection:

Approved dust respirator. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

#### Other information:

Handle in accordance with good industrial hygiene and safety procedures. Do not eat, drink or smoke when using this product.

## SECTION 9: Physical and chemical properties

| 9.1.    | Information on basic physical and    | d chem | ical properties   |
|---------|--------------------------------------|--------|-------------------|
| Physic  | cal state                            | :      | Solid             |
| Appea   | arance                               | :      | Grain dust        |
| Colou   | r                                    | :      | No data available |
| Odou    |                                      | :      | No data available |
| Odou    | threshold                            | :      | No data available |
| pН      |                                      | :      | No data available |
| Relati  | ve evaporation rate (butylacetate=1) | :      | No data available |
| Relati  | ve evaporation rate (ether=1)        | :      | No data available |
| Meltin  | g point                              | :      | No data available |
| Freez   | ing point                            | :      | No data available |
| Boiling | g point                              | :      | No data available |
| Flash   | point                                | :      | No data available |
| Auto-i  | gnition temperature                  | :      | No data available |
| Decor   | nposition temperature                | :      | No data available |
| Flamn   | nability (solid, gas)                | :      | Combustible Dust  |
| Vapou   | ır pressure                          | :      | No data available |
| Vapou   | ır pressure at 50 °C                 | :      | No data available |
| Relati  | ve density                           | :      | No data available |
| Solub   | ility                                | :      | No data available |
| Partiti | on coefficient n-octanol/water       | :      | No data available |
| Viscos  | sity, kinematic                      | :      | No data available |
| Explo   | sive limits                          | :      | No data available |
|         |                                      |        |                   |

#### 9.2. Other information

| No additional information available  |   |  |  |  |
|--------------------------------------|---|--|--|--|
| SECTION 10: Stability and reactivity |   |  |  |  |
| 10.1. Reactivity                     |   |  |  |  |
| Reactivity                           | : No dangerous reactions known under normal conditions of use.  |  |  |  |
| Chemical stability                   | : Stable under normal conditions. May form combustible dust concentrations in air.  |  |  |  |
| Possibility of hazardous reactions   | : No dangerous reactions known under normal conditions of use.  |  |  |  |
| Conditions to avoid                  | : Heat. Sources of ignition. Avoid dust formation.  |  |  |  |
| Incompatible materials               | : None known.   |  |  |  |
| Hazardous decomposition products     | <ul> <li>May include, and are not limited to: oxides of carbon. Hydrogen sulfide. Oxygen deficient<br/>atmosphere when stored under improper storage conditions.</li> </ul> |  |  |  |

| Respiratory or skin sensitization<br>Germ cell mutagenicity<br>Carcinogenicity   | : Not classified.<br>: Not classified.   |
| Germ cell mutagenicity<br>Carcinogenicity  | : Not classified.  |
| Carcinogenicity  |  |
|  |  |
| Reproductive toxicity  | : Not classified.  |
|  | : Not classified.  |
| STOT-single exposure   | : Not classified.  |
| STOT-repeated exposure   | : Not classified.  |
| Aspiration hazard  | : Not classified.  |
| Symptoms/effects after inhalation  | : May cause irritation to the respiratory tract.   |
| Symptoms/effects after skin contact  | : May cause skin irritation. Repeated exposure may cause skin dryness or cracking.   |
| Symptoms/effects after eye contact   | : May cause eye irritation. Symptoms may include discomfort or pain, excess blinking and tea<br>production, with possible redness and swelling.  |
| Symptoms/effects after ingestion   | : May be harmful if swallowed. May cause gastrointestinal irritation, nausea, vomiting and diarrhea.   |
| Other information  | : Likely routes of exposure: ingestion, inhalation, skin and eye.  |
| ECTION 12: Ecological information  |  |
| .1. Toxicity   |  |
| Ecology - general  | : May cause long-term adverse effects in the aquatic environment.  |
|  |  |
| Grain Screenings   |  |
| Persistence and degradability  | Not established.   |
| .3. Bioaccumulative potential  |  |
| Grain Screenings   |  |
| Bioaccumulative potential  | Not established.   |
| Biodecanidiario potential  |  |
| .4. Mobility in soil   |  |
| o additional information available   |  |
| .5. Other adverse effects  |  |
| Dzone  | : Not classified.  |
| Other information  | : No other effects known.  |
| ECTION 13: Disposal considerations   |  |
| .1. Disposal methods   |  |
| Product/Packaging disposal recommendations   | : Dispose in a safe manner in accordance with local/national regulations.  |
| ECTION 14: Transport information   |  |
| .1. Basic shipping description   |  |
| n accordance with TDG  |  |
| Transportation of Dangerous Goods  |  |
| Not regulated for transport  |  |

Safety Data Sheet

according to the Hazardous Products Regulation (February 11, 2015)

# 14.3. Air and sea transport No additional information available SECTION 15: Regulatory information 15.1. National regulations All components of this product are listed, or excluded from listing, on the Canadian DSL (Domestic Substances List) and NDSL (Non-Domestic Substances List) inventories. 15.2. International regulations No additional information available SECTION 16: Other information

| Issue date<br>Revision date | : 01/07/2021<br>: 01/07/2021   |
|-----------------------------|--|
| Other information           | : Refer to NFPA 654, Standard for the Prevention of Fire and Dust Explosions from the<br>Manufacturing, Processing, and Handling of Combustible Particulate Solids, for safe handling. |
